For Attention: Mr. Kwasi Bosompem

Dear Mr. Bosompem,

On behalf of the students, staff and the Board at Ruashi Girls School in Lubumbashi, DRC, I thank you very much for the support and donation of boxes and boxes of needed academic books to the Ruashi Girls School. This is a wonderful effort by your foundation in helping the African girls to learn, respect themselves and take control of their own lives while they acquire leadership and communications skills in our community. Through the donation, the girls test scores have improved; there is a higher retention rate in the school and with lower dropout and pregnancy rates. They have also made changes in their own lives.

Your continued effort to support these girls into secure livelihoods is much appreciated and it is hoped that they will become leaders of change through the Lets Go Africa Foundation team and particularly, yourself.

We do value your contribution and continued support.

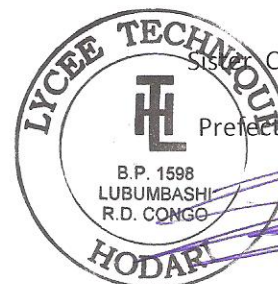

Attached is a list of some books and some machines that are seeking new from you to better run our culture cells (Library and Internet café).

Sincerely,

Signed
